

Advanced Communication Solutions

ACS, Advanced Communication Solutions, held its 6th annual customer appreciation charity golf tournament at the Grand Cypress golf resort on the new course. ACS is a company that provides telecommunication solutions and is based in Lake Mary with offices throughout the Southeast. ACS entertained 120 golfers that were comprised of customers, prospective clients and their strategic partners that traveled across the country to be present. The Key corporate sponsors for the event were NEC, Sprint, Embarq, Bellsouth and Zeacom. With the generosity of the corporate sponsors and the golfers that bid on silent auction items, ACS was able to make two child's wishes come true with a \$10,000.00 donation we raised for the Make a Wish Foundation.

This is the first year the event was held in Central Florida. The previous five outings were held in South Florida. Earlier in the year

Check presentation: Steve Battista, President of ACS, Betty Stuart and Alicia Carby of the Make a wish Foundation.

First place team: Dave Polansky, Alan Gooch, Jeff Lagos, Dave Watson and Steve Battista

2nd place team: Chris Smith, Sean Smith, Rex Crane and Joel Blake.

ACS relocated their corporate headquarters from Deerfield Beach to Lake Mary. Steve Battista, owner said, "We were very enthusiastic with how the event turned out the participation and money we were able to raise was higher this year than in previous years. The Staff at the Grand Cypress did an awesome job and I don't think we could have picked a better site to host our event this year. Not only did the course and banquet room make it a great venue we were able to have our event with one of our clients."
